Github, Tutors + TutorsTime/Live

HDIP | 25

If you do NOT have a Github account visit [GitHub.com](https://github.com) & sign up for a new account (instructions on next slides)

If you DO have a Github account - please configure your Github profile as shown on slides 7 & 8 below

The screenshot shows the GitHub sign-up interface. At the top left is the GitHub logo. The main content area has a dark blue background with white text. It says 'Welcome to GitHub!' and 'Let's begin the adventure'. Below this are three input fields: 'Enter your email*', 'Create a password*', and 'Enter a username*'. The email field contains 'frankwalsh59@gmail.com' with a green checkmark to its left. The password field contains a series of dots with a green checkmark to its left. The username field contains 'fxwalsh-coder' with a red arrow pointing to it from the right. A green 'Continue' button is located to the right of the username field. At the bottom, it says 'fxwalsh-coder is available.' Two grey arrows point from the right side of the slide to the email and username fields, with text annotations.

Welcome to GitHub!
Let's begin the adventure

Enter your email*
✓ frankwalsh59@gmail.com

Enter a username*
→ fxwalsh-coder

Continue

fxwalsh-coder is available.

Use any Email address you like (you will need to verify)

Use any username you like

Selected plan: Free

Welcome to GitHub

Woohoo! You've joined millions of developers who are doing their best work on GitHub. Tell us what you're interested in. We'll help you get there.

What kind of work do you do, mainly?

Software Engineer I write code	Student I go to school
Product Manager I write specs	UX & Design I draw interfaces
Data & Analytics I write queries	Marketing & Sales I look at charts
Teacher I educate people	Other I do my own thing

How much programming experience do you have?

None I don't program at all	A little I'm new to programming
A moderate amount I'm somewhat experienced	A lot I'm very experienced

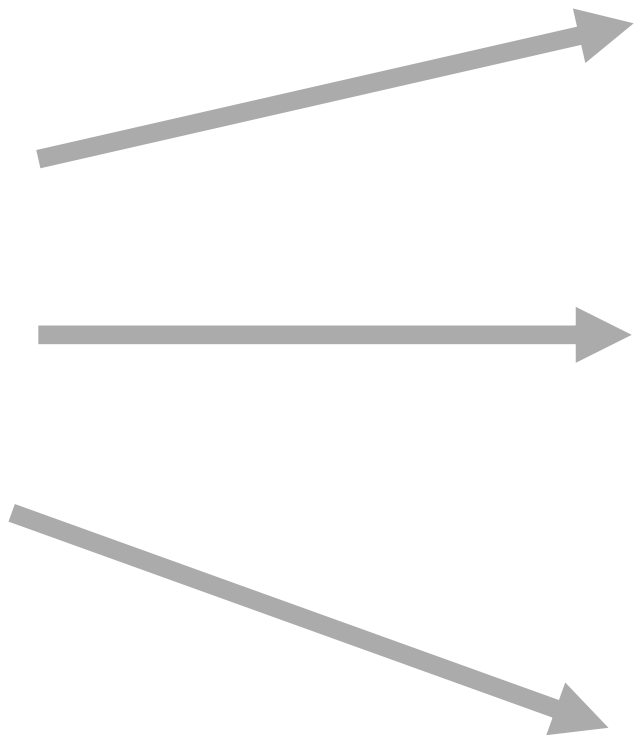

What do you plan to use GitHub for?

(Select up to 3)

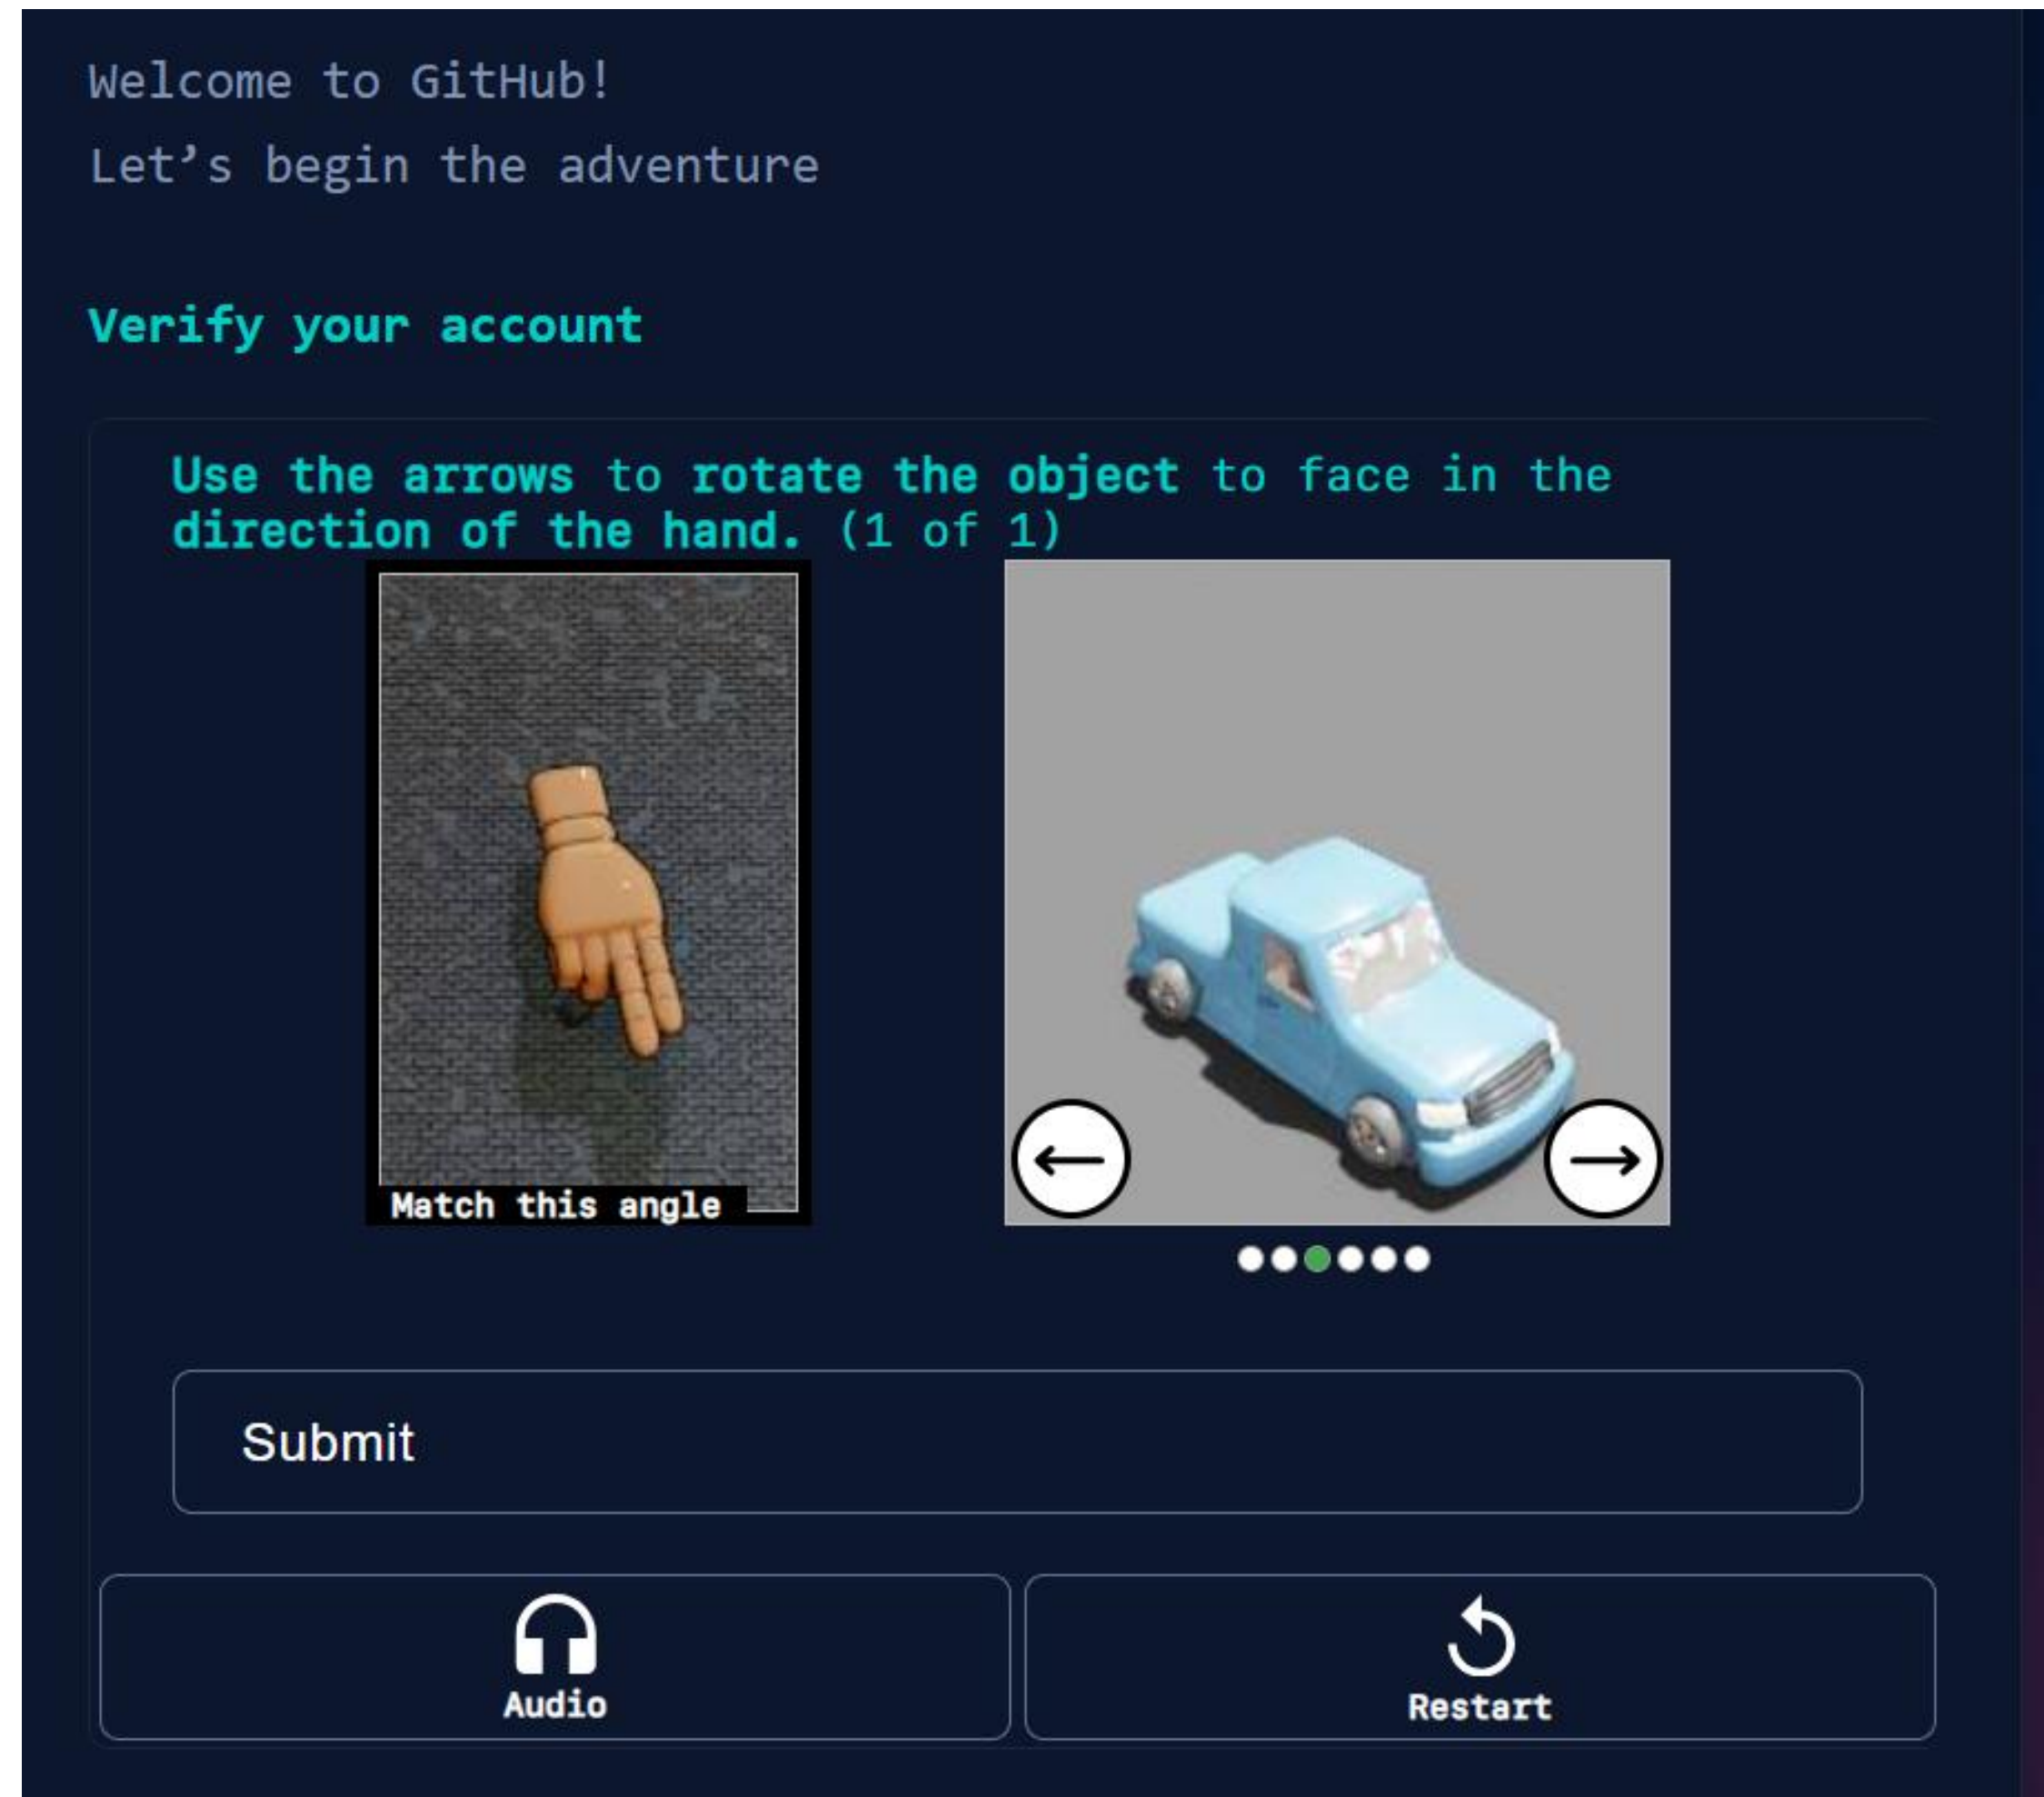

--	--	--

You may be asked to fill out a quick survey

Select any survey responses you like

To proceed you may be asked to solve a puzzle

To proceed you will need
to verify your email
address and retrieve a
Launch Code

You're almost done!
We sent a launch code to `frankwalsh59@gmail.com`

→ Enter code*

Once verified you
can log in

You may be asked a few questions, but you can skip this if you wish...

The image shows the GitHub welcome screen. On the left, the GitHub logo is at the top, followed by a small icon of three people in speech bubbles. Below this is the text "Welcome to GitHub" in a large, bold, light blue font, and "We are glad you're here." in a smaller, lighter blue font. On the right, there is a white rounded rectangle containing a survey. At the top of the survey is a progress bar. The survey text says "This will help us guide you to the tools that are best suited for your projects." followed by the question "How would you describe yourself?". There are four radio button options: "Student", "Teacher", "Working developer", and "Other". Below this is another question: "How many team members will be working with you?". There are six radio button options: "Just me", "2-5", "5-10", "10-20", "20-50", and "50+". At the bottom of the survey is a blue "Continue" button. At the bottom right of the entire screen, there is a link that says "Skip personalization".

Welcome to GitHub

We are glad you're here.

This will help us guide you to the tools that are best suited for your projects.

How would you describe yourself?

☐ Student ☐ Teacher

☐ Working developer ☐ Other

How many team members will be working with you?

☐ Just me ☐ 2-5 ☐ 5-10

☐ 10-20 ☐ 20-50 ☐ 50+

This will trigger a login request...

Tutors Sign In

 Sign in with GitHub

You are about to be authenticated via your Github credentials to Tutors. **For most courses, you do not need to log in at all, so if you prefer you can go back to the course page and proceed through the course as for any public web site.**

If you do sign up/log in, then you will need a github account first. Logging in will then make a simple convenient dashboard available of quick links to all recent Tutors courses you have accessed.

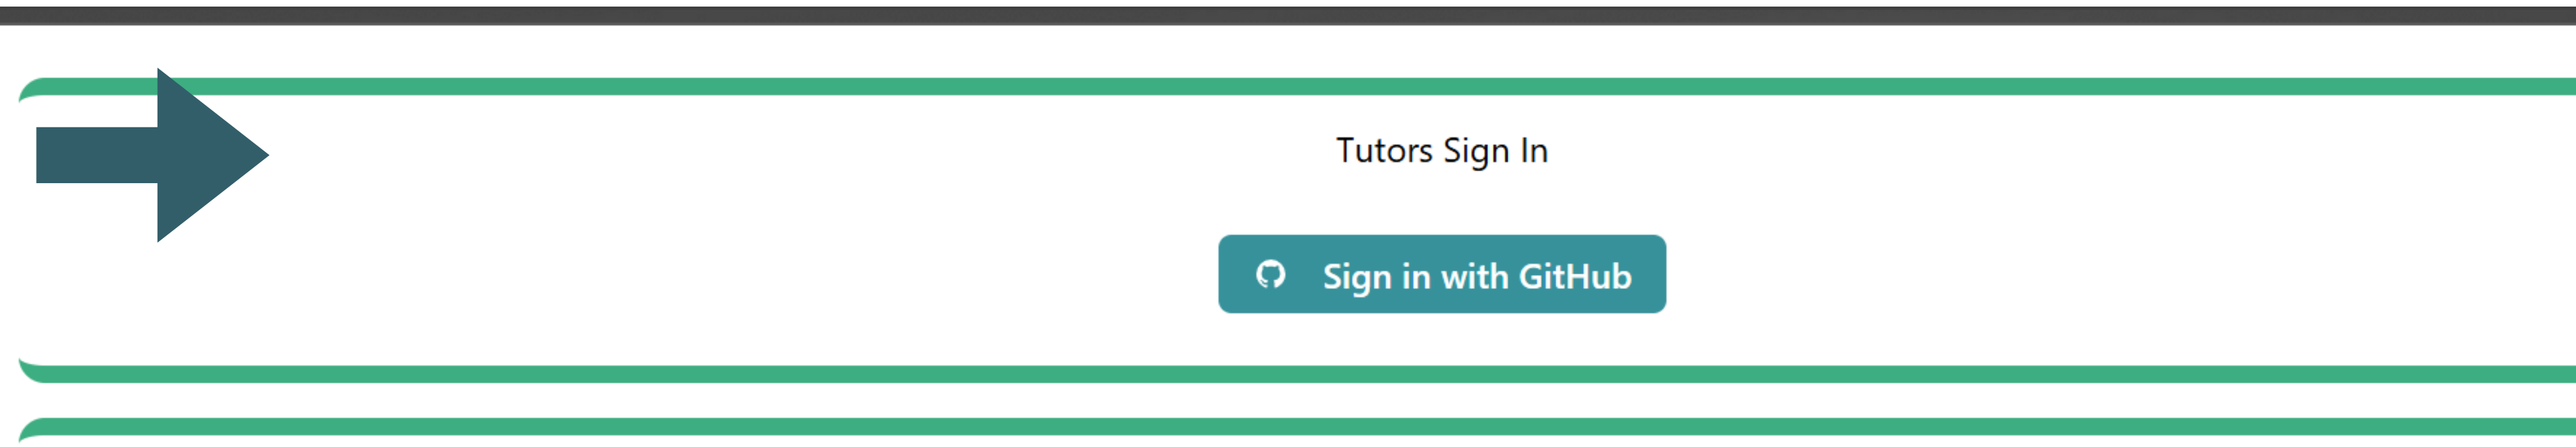

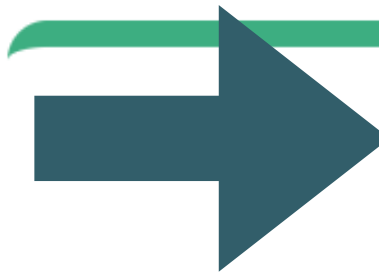

For some courses, Tutors will always require an account to gain access - and you will be landed here. Once logged in, Tutors may record how much time each view is active and send this to the TutorsTime data store. You can view this information via the Time feature on the profile menu. This data is available to you + the instructor of your course, but not to other students. No other data is gathered, nor is this data transmitted anywhere other than the TutorsTime data store.

The Live feature, available from the profile menu, may also use this data to display of panel of students currently online. **You can opt out of these features by disabling the Share Presence option from the profile menu.** To learn more about TutorsTime please consult:

- [Tutors Time FAQ](#)
- [Tutors Live FAQ](#)

Tutors is an open source application - the data collection component [is here](#).

You will now be authenticated into Tutors your Github credentials

Some usage data will be collected

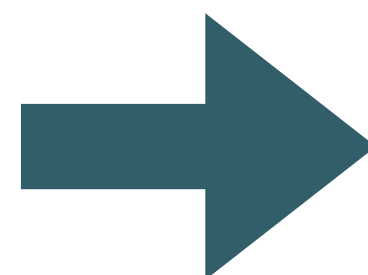

You are about to be authenticated via your Github credentials to Tutors. **For most courses, you do not need to log in at all, so if you prefer you can go back to the course page and proceed through the course as for any public web site.**

If you do sign up/log in, then you will need a github account first. Logging in will then make a simple convenient dashboard available of quick links to all recent Tutors courses you have accessed.

For some courses, Tutors will always require an account to gain access - and you will be landed here. Once logged in, Tutors may record how much time each view is active and send this to the TutorsTime data store. You can view this information via the Time feature on the profile menu. This data is available to you + the instructor of your course, but not to other students. No other data is gathered, nor is this data transmitted anywhere other than the TutorsTime data store.

These FAQ links explain the rationale for this
